PROFILE

Final-year Software Engineering student at UMT Lahore with internship experience at 10Pearls Pakistan and Devsinn Technologies. Proficient in building production-ready RESTful APIs with ASP.NET Core (self-taught), JWT authentication, EF Core, and Repository Pattern. Experienced in full-stack development using MERN stack and Next.js. Passionate about writing clean, scalable, and maintainable code.

WORK EXPERIENCE

10Pearls Pakistan — MERN Stack Developer Intern

Sep 2025 – Dec 2025 | Lahore

- Developed a full-stack MERN application with 5+ core modules serving real client requirements
- Integrated 10+ RESTful API endpoints using Node.js and Express.js connected to MongoDB
- Reduced bug count by 30% through systematic testing, debugging, and peer code reviews
- Collaborated with a cross-functional team using Git workflows and agile development practices

Devsinn Technologies — Next.js Developer Intern

Aug 2025 – Sep 2025 | Lahore

- Built 8+ responsive, production-ready UI components using Next.js, TypeScript, and Tailwind CSS
- Integrated REST APIs and optimized frontend performance for client-facing applications
- Delivered UI improvements that went live in production within the internship period

PROJECTS

Job Application Tracker

Apr 2026

- Built full-stack job tracking app — ASP.NET Core Web API backend + Next.js/Shadcn UI frontend
- Implemented JWT auth, EF Core with SQL Server, Repository Pattern, and Swagger documentation
- Designed 4 relational entities with full CRUD APIs and status-based filtering
- GitHub: github.com/hammad-umt/job-tracker-api

Task Management API

Mar 2026

- Developed production-ready RESTful API with 15+ endpoints using ASP.NET Core Web API (self-taught)
- Implemented JWT authentication with 3 role-based access levels — Admin, Manager, User
- Applied AutoMapper reducing data mapping code by 60%; secured passwords with BCrypt hashing
- GitHub: github.com/hammad-umt/task_management_api

Inkwell — MERN Blog Platform

Sep 2025 – Nov 2025

- Built full-stack blogging application with end-to-end CRUD using Node.js, Express.js, and MongoDB
- Implemented JWT authentication, bcrypt password hashing, and RESTful API design

AI Recipe Finder

Mar 2025 – Apr 2025

- Developed AI-powered recipe app using Flask, SQLAlchemy, and Gemini API for dynamic generation
- Built REST API backend with Python integrating real-time AI recipe suggestions

Quizzy App

Dec 2024 – Feb 2025

- Built cross-platform quiz app using Flutter with OpenAI API for dynamic question generation
- Implemented score tracking, topic management, and offline functionality

EDUCATION

University of Management and Technology (UMT)

Sep 2022 – Present

Bachelor of Science in Software Engineering — Lahore, Pakistan

TECHNICAL SKILLS

Backend: ASP.NET Core Web API, C#, Node.js, Express.js, Python (ASP.NET Core — self-taught)

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Shadcn UI, HTML/CSS

Database: SQL Server, Entity Framework Core, MongoDB, SQLite

Tools: Git, GitHub, Postman, Swagger, Visual Studio, VS Code, Vercel, Netlify

Concepts: REST APIs, JWT Authentication, Repository Pattern, Clean Architecture, CI/CD

Mobile: Flutter

CERTIFICATES

Microsoft Full-Stack Developer Professional Certificate (Coursera — In Progress)

Programming with JavaScript • Introduction to Frontend Development • Python Basics • Version Control • Python Classes & Inheritance
